

NEW LIFE

Concentrated Carpet and Upholstery Extraction Cleaner

A powerful, deep cleaning extraction type cleaner for heavily soiled carpets and fabrics. New Life is a highly concentrated formulation engineered to provide superior results on all colorfast fibers including wool, nylon, rayon, acrylics, and polyolefins. Its inherent anti-foam properties provide continuous foam control even with carpeting that contains soapy residues from rotary shampooing. Additional performance improving features include soil barriers, corrosion inhibitors, and a deodorizer. New Life's low pH makes it safe to use on all Stain Master treated fabrics. Use of this product will leave even the most soiled carpet or fabric bright and fresh.

APPLICATION & MAINTENANCE

NOTE: Before using this product check the carpet or fabric for color fastness. Remove any furniture or obstructions and vacuum the area to remove loose dirt. If necessary, use Hot Spot to eliminate stains. Mix 1/2 to 1 ounce of extraction cleaner per gallon of hot water for normal soil or 2 to 3 ounces per gallon for heavy soil and pour it into the solution tank of the extraction machine. Utilize the extraction machine according to the manufacturers instructions to clean the carpet or fabric. Re-set the pile by brushing the area with a stiff brush, and allow it to completely dry before replacing the furniture.

SPECIFICATIONS

Active Ingredients	Alkaline Detergents
pH	Concentrate 9.5 - 10.0 1 ounce/gallon dilution 9.3 3 ounces/gallon dilution 9.6
Free Ammonia	None
Free Acid	0.4%
Phosphates (Elemental)	0.1%
Abrasives	None
Color	Amber
Odor	Detergent odor
Solubility in Water	100%
Freeze/Thaw Stability	3 cycles minimum
Shelf Life	1 year minimum at room temperature
Flash Point	>220°F
Weight Per Gallon	9.08
Biodegradable	Yes
Soil Suspension	Excellent

SAFETY INFORMATION

Health	1
Flammability	0
Reactivity	0
Personal Protection	B

CAUTION: Contains alkaline detergents which may cause irritation in undiluted concentrations. If ingested give vinegar, juice of lemon, grapefruit or orange freely. Induce vomiting with oil of ipecac. In the event of skin contact flood the affected area with water for 15 minutes, rinse with vinegar, rinse with water again. For contact with eyes rinse with clear water for 15 minutes. **Contact a physician.** Contains Diethylene Glycol Methyl Ether CAS# 111-77-3. For detailed information consult MSDS sheet.
