

# GREASE CUTTER

Low Foam, USDA Compliant,  
Non-Corrosive, Food Service Degreaser

Although effective, highly alkaline, corrosive degreasers present safety issues that are becoming of increasing concern to industrial hygienists responsible for employee safety, and the maintenance personnel that use them. Grease Cutter offers a safer, yet effective alternative for cleaning and degreasing the stubborn protein based soils, commonly encountered in meat and food processing facilities, commercial kitchens, and food storage areas. Formulated with water miscible solvents and powerful detergents, Grease Cutter will readily dissolve animal fats, fish slime, meat residues, blood, oils and other protein based and hard to remove soils. Grease Cutter's moderate foaming action effectively suspends soils, yet allows it's use in autoscrubbers or pressure washers without overflowing recovery tanks or generating excess foam. Non-corrosive and biodegradable Grease Cutter provides the aggressive cleaning power needed in commercial food handling facilities, without the potential for chemical burns and related health considerations associated with highly alkaline degreasers. Grease Cutter may be used on all metal, concrete, ceramic tile, stone, formica, rubber, and painted surfaces.

## APPLICATION & MAINTENANCE

For routine cleaning of floors, walls, food preparation tables or other hard surfaces in food service areas, dilute 1 part Grease Cutter with 32 parts hot or cold water (4 ounces per gallon). Diluted solution may be applied with a pressurized sprayer, pressure washer, automatic scrubber or mop. Allow the solution to work for several minutes then agitate with a brush, scrubbing machine, or automatic scrubber. Remove the soiled solution with a wet vacuum, automatic scrubber or mop, then rinse the surface thoroughly with clean water, and allow it to dry. Dilution ratios of Grease Cutter may be increased or decreased; 4 ounces per gallon (1:32) for routine cleaning to 12 ounces per gallon (1:10) for heavy duty degreasing.

## SPECIFICATIONS

Active Ingredients	Alkaline detergents
pH	13.0 - 13.4
Free Ammonia	None
Free Alkali	None
Free Acid	None
Phosphates	0.1%
Abrasives	None
Color	Clear
Odor	Detergent odor
Solubility in Water	100%
Freeze/Thaw Stability	3 cycles minimum
Shelf Life	1 year minimum at room temperature
Flash Point	>220°F
Weight Per Gallon	9.0
Biodegradable	Yes
Soil Suspension	Excellent

## SAFETY INFORMATION

Health	2
Flammability	0
Reactivity	0
Personal Protection	B

**NOTE:** Contains alkaline detergents. May cause irritation in undiluted concentrations. If ingested give milk, water, vinegar, or citrus juice. Induce vomiting with oil of ipecac. External contact, flood with water, wash with vinegar, rinse with water. In the event of eye contact, flush with plenty of clean water. **Contact a physician immediately.** Contains Dipropylene Glycol Monomethyl Ether CAS# 34590-94-8, Disodium Metasilicate Pentahydrate CAS# 10213-79-3. Read Material Safety Data Sheet thoroughly before using.
