

GRILL FIX

Heavy Duty, Grill and Oven Cleaner

Grill Fix is a heavy duty grill and oven cleaner designed to dissolve away built up grease and cooking deposits from grills, ovens, grease filter ducts and deep fryers. Specifically formulated to cling to vertical surfaces, this cleaner significantly reduces messy run-offs and reduces the amount needed to effectively cut through heavy deposits of grease, fat and proteins. Grill Fix works equally well on hot or cold surfaces, reducing wasted time spent cooling grill, ovens, and appliances.

APPLICATION & MAINTENANCE

FOR OVENS AND GRILL SURFACES: Apply six to eight ounces of concentrated cleaner to a cold or hot surface (250°-300° F). Allow the cleaner to work for two to five minutes. Brush off loosen deposits, and wipe clean with a damp sponge or cloth. Repeat the process for especially stubborn stains. Redress the cleaned surfaces with cooking oil or other similar treatment.

FOR CERAMIC TILE, STAINLESS STEEL, FORMICA, OR PAINTED SURFACES: Use two ounces of Grill Fix per quart of hot water. Apply diluted solution with a sponge or cloth. Allow the solution to work for three to five minutes. Wipe off the solution and dissolved soil, then rinse with clean water.

SPECIFICATIONS

Active Ingredients	Silicate and hydroxide of soap, alkaline grease cutters and detergents
pH	12.5-13.5
Free Ammonia	None
Free Alkali	<7%
Free Acid	None
Phosphates (Elemental)	0.1%
Abrasives	None
Color	Clear
Odor	Mild detergent odor
Solubility in Water	100%
Freeze/Thaw Stability	Minimum 3 cycles
Shelf Life	1 year minimum at room temperature
Flash Point	None
Weight Per Gallon	9.1
Biodegradable	Yes
Soil Suspension	Excellent

SAFETY INFORMATION

Health	2
Flammability	0
Reactivity	0
Personal Protection	D

NOTE: Wear rubber or plastic gloves, protective clothing, and safety glasses while using this product. **Do Not Mix With Other Chemicals.**

CAUTION: Contains strong alkaline detergents which cause chemical burns in undiluted concentrations. If ingested, give vinegar, juice of lemon, grapefruit or orange freely. Follow with olive oil. **Do not induce vomiting.** In the event of skin contact, flood the affected area with water for 15 minutes, rinse with vinegar, rinse with water again. For contact with eyes, flood with clear water for 30 minutes. **Contact a physician immediately.** Contains Sodium Hydroxide CAS #1310-73-2. For detailed information consult MSDS sheet.
